Dear «Principal Name»:

Many students in our area may be unable to succeed in school because they have vision problems. The Stanton Lions Club has been helping children in our community for over fifty-nine years. We would like to help your students.

Students may need corrective lenses necessary for reading or seeing the chalkboard. Other students may need vision therapy to read. Although Orange County is thought of as a wealthy community, there are many families who cannot afford vision care for their children. After paying for the necessities, (food, rent, etc.) families do not have money left over for a new prescription. Even families with health insurance might have problems. Their plan may have a high deductibles or co-pays. Alternatively, a child may break his or her glasses and their insurance may not pay for new glasses within a year. And many families may not qualify for the state of California sponsored plans.

In most cases we can pay for the examination, glasses, and vision therapy for your students in need. This is possible because the Stanton Lions Club raises funds for the needy in our community. Furthermore our community partners, the Boys & Girls Club of Stanton and local doctors, provide insurance and services at a reduced cost.

We have enclosed a form (also available at [www.stantonlions.org](http://www.stantonlions.org)). Please be assured that the information on the form will be kept confidential, and we will not require income tax records or other documents.

Thank you for your attention to this matter. If you have any questions, please feel free to contact me at [dave@stantonlions.org](mailto:dave@stantonlions.org).

Sincerely,

David Parikh

Stanton Lions--Sight and Hearing Committee
